Cablecraft Motion Controls has worldwide industry experience providing foot controls to meet specific customer requirements. These include rocker pedals, suspended pedals, integral floor-mounted pedals, and more. The foot control output can be electronic, hydraulic, solid linkage, flexible cable, or unique to the application. Hardware can be designed to meet specific envelope, geometry, load, adjustment, maintenance and environmental requirements. A wide range of components, materials, processes and surface finishes are available.
Material
- Zinc Based Die-Cast Body
- Plated Steel Internal/External Components

WARNING!
Since the manufacturer is unable to determine all applications in which a part may be placed, it is the user’s responsibility to determine the suitability of the part for its intended use. This is especially true where safety is a factor. Incorrect application or installation may result in property damage, bodily injury, or death. For technical assistance, call 260-749-5105.
